Wait, what?

- **Set of good practices and user experience - language / framework agnostic:**
    - Show content while offline
    - Implement Service Worker
    - Show splash screen (manifest)
    - Show content with no JavaScript
    - Use HTTPS (preferably HTTP/2)

Wait, what?

- Set of good practices and user experience - language / framework agnostic
- **Platform independent (iOS*, Android, desktop)**
